Cataract Surgery Vision Preference Survey

Name: _____ Date: _____

Your answers will help your surgeon understand your visual needs and priorities when discussing cataract surgery and lens options. There are no right or wrong answers.

1. After cataract surgery, how important is it to you to reduce your need for glasses at each distance? Check **ONE** option in each row.

Distance Driving, TV, golf, sports	☐ Very important to avoid glasses ☐ Prefer not to wear glasses, but occasional glasses are okay ☐ I don't mind wearing glasses
Intermediate Computer, phone, dashboard, cooking, menus	☐ Very important to avoid glasses ☐ Prefer not to wear glasses, but occasional glasses are okay ☐ I don't mind wearing glasses
Near Reading, fine print, detailed handheld work	☐ Very important to avoid glasses ☐ Prefer not to wear glasses, but occasional glasses are okay ☐ I don't mind wearing glasses

2. Which ONE statement best describes how you feel about your night vision?
☐ Having the best possible quality of night vision is extremely important to me
☐ I want to drive comfortably at night and could tolerate some halos or glare
☐ Night driving and night vision are not major priorities for me

3. If you needed glasses for only ONE activity after surgery, where would you be most willing to wear them?
☐ Distance - driving, television, sports ☐ Intermediate - computer, dashboard, cooking ☐ Near - reading and fine print

4. What is your occupation or previous occupation? _____

5. What activities or hobbies are most important to you? _____

6. Would you consider a greater range of vision without glasses if it meant you might notice halos or glare around lights at night? ☐ Yes ☐ Maybe ☐ No

7. Have you ever had any of the following? ☐ LASIK/PRK ☐ RK ☐ Other laser/refractive surgery ☐ Worn contact lenses ☐ None

8. Place an X on the line to describe your preference regarding glasses.

X—----------X

I prefer wearing glasses I hate glasses

9. Place an X on the line to describe your personality as best you can.

X—----------X

Easy-going Perfectionist

10. If you could choose **ONE** visual goal that matters most to you after cataract surgery, what would it be?

☐ Clearest possible distance vision without glasses ☐ Best possible night vision ☐ Reading without glasses
☐ Computer/intermediate vision without glasses ☐ Greatest possible range of vision without glasses
☐ I am comfortable wearing glasses and primarily want the best quality vision
☐ I'm not sure - I would like my surgeon to help me decide
